PARTNER OF THE MONTH

It's Different Out Here™

We're kicking off the year with exciting updates designed to help you earn more and sell more with confidence.

First, Norwegian has officially [eliminated Non-Commissionable Fares](#) — meaning you now earn commission on the full cruise fare (excluding taxes and fees). This long-awaited change ensures you get paid more for every booking you make with us.

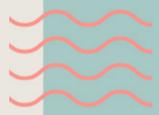

Next, we've expanded earning opportunities even further: you can now earn commission on [Free at Sea Plus package upgrades](#). Not only does FAS+ elevate your clients' experience on board, it also increases your revenue and helps drive repeat business.

And since you are our **Partner of the Month**, we're celebrating you with an exclusive consumer offer to help you close even more sales.

From March 10 through March 20, 2026, you can offer your clients **up to \$200 onboard credit** on any Alaska, Caribbean, and select Europe and Bermuda itineraries sailing July 2026 through January 2027. It's a strong added-value incentive designed to help you convert interest into bookings while delivering an unforgettable experience for your travelers.

Thank you for your partnership — we look forward to an incredible year ahead of shared success!
